MESSAGE: COMMENTS REGARDING MICROSOFT
SETTLEMENT.

3855 Jonathans Way
Boynton Beach, Florida 33436

January 26, 2002

Attorney General John Ashcroft
US Department of Justice
950 Pennsylvania Avenue, NW
Washington, DC 20530

Dear Mr. Ashcroft:

The intent of this letter is to go on public record and express my support for the settlement that was reached in the antitrust lawsuit between Microsoft and the Department of Justice. The settlement was reached on November 2, 2001, and I was relieved to see that the suit had finally come to an end.

There are still individual states that are continuing with litigation against Microsoft, and I hope that will soon come to an end, but I am happy to see that it has been settled at the federal level. Hopefully the remaining states will see that they are wasting funds that could be used for so many other more important issues. Microsoft had to concede more than they would have initially liked, but settling the dispute and getting back to business was more important.

Microsoft will be monitored by an ongoing technical oversight committee, so they will have to abide by the terms of the settlement. I am glad to see that two sides come to an agreement, and I fully support the settlement.

Sincerely,

Jerry Doser
